Waste Management Policy

Purpose:

Waste Management concerned with proper disposal is the utmost desire of any organization. Considering this viewpoint, Nagarjuna Institute of Engineering, Technology and Management is committed to managing all wastes, including e-waste and solid and liquid waste. The Policy covers the waste generated from within the campus of Nagarjuna Institute of Engineering, Technology and Management.

Statement:

The philosophy behind waste management is to follow the 3 R's (Reduce, Reuse and Recycle) principles of Waste Management. The Nagarjuna Institute of Engineering, Technology and Management is committed to managing all types of wastes generated from its operation in an environmental friendly manner and in line with applicable waste management rules.

Objectives:

The following are the objectives of the Waste Management policy of the Institute.

- To ensure that all applicable waste management rules are performed by the management.
- To minimize waste generation at the source and follow the 3R (Reduce, Reuse and Recycle) principles.
- Conduct training and awareness program for the faculty, officers, staff members, students and fourth class employees.
